swimaloha.com

Family, Experience, Longevity...

Over 45 Years of Pool Construction Experience

In 1969, the Cook family installed their own in-ground pool in Trimble, Tennessee. Since then, the Cooks and their children have installed thousands of pools for customers in seven states.

John & Dona Cook

Families trust Aloha Pools & Spas to deliver affordable, low-maintenance custom pools built with the most up-to-date technology available. The finest in design and construction is complemented by a staff of water professionals and service technicians dedicated to making pool ownership a breeze for over 7,000 customers.

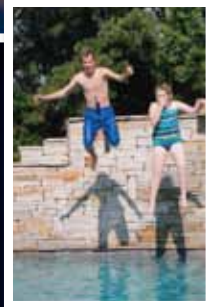

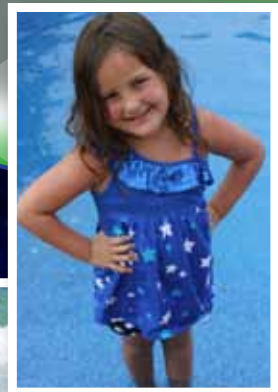

An Aloha pool is a value well beyond your initial investment. As an expert full-service pool company, we specialize in designing spectacular pools that are extremely easy to maintain.

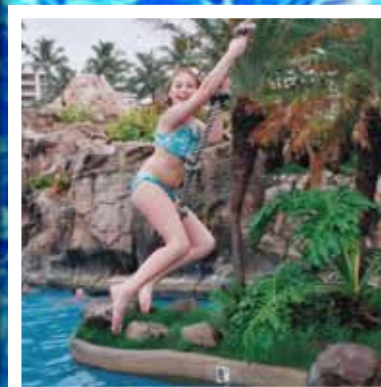

The Cook Children: Doug, Deb, Dennis & Brad

Let us create a custom design to fit your style, backyard, & budget.

The best investment is your family.

Make every day a holiday.

21st Century Technology Meets Affordability...

The Affordable American Dream

For the family on a budget, above ground pools are an excellent choice. Available in sizes up to 33 feet in diameter, the latest above ground pools look great and last for years. At Aloha Pools & Spas, we research and shop all manufacturers each year to make sure we have the best product at the lowest price to offer our customers. Have questions about pool maintenance? We can help with that too! Our water professionals boost their knowledge annually by attending schools that focus on carefree water care at the best price.

Floridian Series

Oval | Jackson, TN

Round and oval in-ground pools offer the most swimming area for your money. These pools are installed using the most up-to-date Aloha construction techniques. For the family who wants to swim, play and relax – without all the fancy “extras” – this is the pool for you. With five different round and four oval sizes available, it’s an economical option that allows you to see your family’s in-ground pool dreams come true.

Round | Parsons, TN

Oval | Medina, TN

Oval | Paducah, KY

The Aloha Advantage:

Need help visualizing your new pool? Ask about our computerized design services. And rest assured that pool construction is done by employees of Aloha Pools & Spas.

Strength, Durability & Flexibility

ALUMINUM COPING POOLS

Beauty and Value

When choosing a pool, consider the benefits of a vinyl pool with aluminum coping. Vinyl pools have a custom sheet of vinyl between the water and the concrete wall. They are less expensive, easy to maintain, and with our concrete wall construction forms, they can have many of the custom options that used to be available only with fiberglass and gunite. And changing the visual effect of your pool is always a possibility with an updated liner.

Millersville, MO

Palmerston, TN

My pool is beautiful and it was a remarkably easy process before I was vacationing in my own back yard. Tiffany and Brock came to my home, I pointed to a series of pool pictures of what I wanted, and they made it happen. All questions I had about whether I was making good decisions about pool construction were answered honestly and promptly, so that the final outcome was a beautifully finished pool and surrounding area. The pool requires little effort to maintain, and the eager staff at Aloha has made sure all my questions were promptly answered. I will be vacationing in my pool in my own back yard this summer!

Marsha Rust

RECTANGLE POOLS

Troy, TN

Perryville, MO

Union City, TN

"My family and I are absolutely thrilled with our fabulous new pool! After several years of dreaming of a backyard pool and a few months of researching information about pools and pool companies, I knew from the moment that I met the owners and staff of Aloha Pools and Spas that I had come to the perfect place to fulfill those dreams. From the thorough consultation and design to the impressive installation process and beyond, I received phenomenal customer service with each and every step. Cindi, Linda, and Brad never hesitated to answer my numerous questions and respond to my calls and texts. During the installation process, the Aloha staff always

A Timeless Classic

Time Honored Style...

For our customers who prefer a timeless classic, this shape is an excellent choice. But even a vintage style can benefit from an upgrade -- like custom coping, fountains, benches and ledges. Perhaps these ideas from other customers will inspire you!

Medina, TN

Portageville, MO

Paducah, KY

notified me about when the construction crew would be at my home. Each different division of the construction team was always prompt and meticulous about their work. It was simply amazing to watch the construction crew creating what will be many years of summer fun and memories for my family and friends! The quality and beauty of our pool has far surpassed anything that I could have ever imagined. I would recommend Aloha Pools and Spas a million times over to anyone that is considering purchasing a pool."

**Mandy Thompson,
Mayfield, KY**

L-SHAPE POOLS

Room For Everyone...

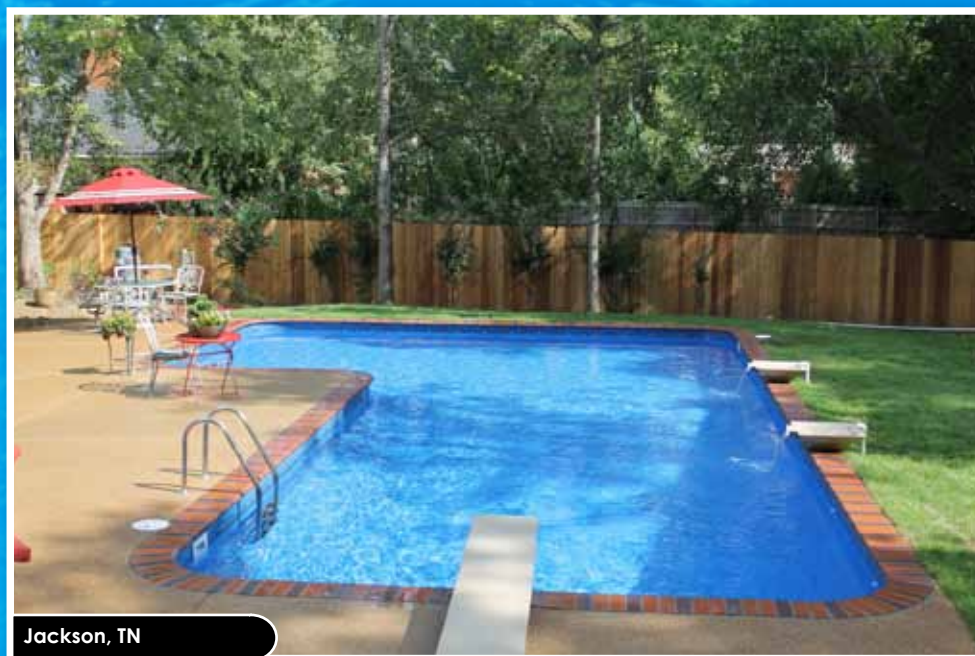

Big family? Party house of the neighborhood? Sports fanatics? The L-shape pool is for you! These pools are perfect for the family who wants plenty of room for activity AND relaxation. And yes -- you can get all the cool add-ons, like ledges and benches.

"Aloha Pools & Spas built our pool in 2010, and it was built to the specifications we required. They were prompt with delivery, and they worked through the construction process in an informative way that allowed me to understand both timing and installation. Aloha kept all commitments related to construction. Their service after the sale has meant so much to me, as has the quality of my new pool. Aloha employees are always available to answer my questions, and they have helped me learn how to care for my pool. I would definitely recommend Aloha Pools & Spas to others looking to make a pool purchase."

A New Twist on a Classic

A Distinctive Look..

For the consumer who loves a traditional look, but appreciates a little something extra -- the Somerset shape is the perfect choice. Benches and ledges fit snugly into this pool, and our customers tell us that they love having the unique pool in the neighborhood.

We love our Aloha pool! The primary reason for the installation was for our three grandkids. We enjoy it as much, if not more, than they do. Everyone who has seen it really likes the way Aloha customized it to our yard. Your installation crews were very courteous. While they were waiting on concrete they even swept our driveway! The staff at the Jonesboro store have answered many, many questions for us as first-time pool owners without making us feel dumb. I would recommend Aloha Pools to anyone thinking about a pool!

Modern Curves...

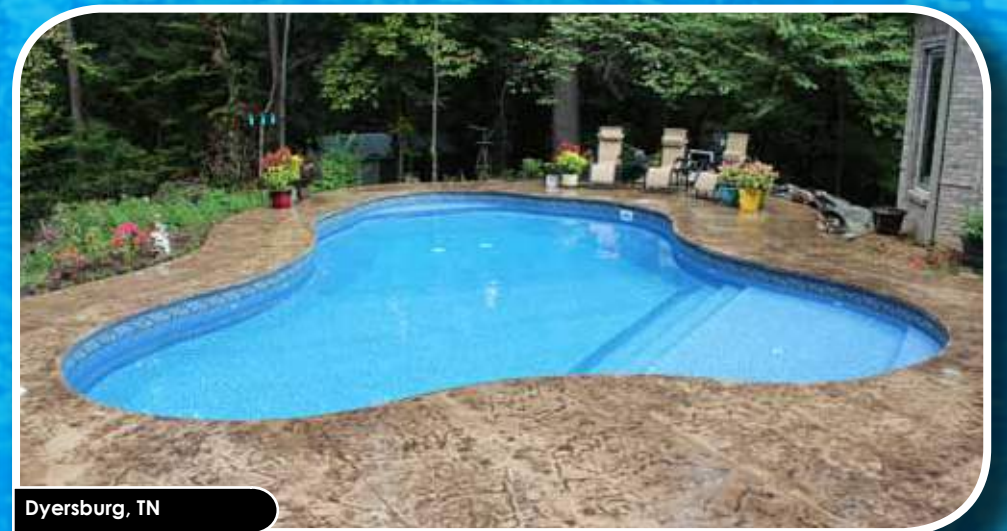

Looking for something a little different? Add some sexy curves to your back yard with a pool from our Laguna series. Ledges and benches fit nicely into the contours of these freeforms, and your pool will be one-of-a-kind. Be the envy of your neighborhood.

"First, we bought an above ground pool from Aloha, and later purchased an in-ground pool from the Union City location. When we moved to Jonesboro, Arkansas, we shopped around for an in-ground pool company. No one came close to providing the service, retail facilities, professionalism, knowledge and personal attention that we got from the Aloha Pools staff. We called Aloha to build our new in-ground pool here in Jonesboro."

Innovation and Automation..

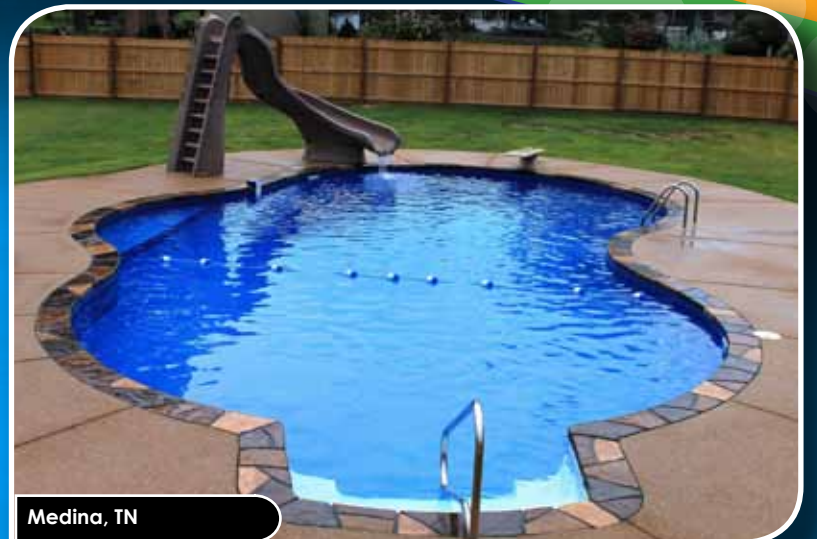

Pictures can spark the imagination and help you get started in your own classic pool design process, but nothing beats being able to touch and see real pools. That's why Aloha Pools & Spas features over 30 display pools at our five locations – so you can imagine your own finished pool. Display pools also help customers brainstorm about questions and ideas they may have – from the latest in innovation to automation and pool maintenance. Visit one of our five locations to learn more!

Classic Pools with Contemporary Flair

"It's still amazing that after checking four other companies, your company came that far away and did the job that they did. I was told by a local pool company that it took months to put in a pool, yet your crew had my pool done in eight days. Every crew was professional, courteous and fast. My property was in good shape when everyone left and the final touches were right on. The computer is programmed, the pumps and fountains are on a timer and everything operates just great. The water quality stayed perfect without my having to do anything until we had to close the pool. You and your company have never once dropped the ball and I'm the first to complain when something isn't right. Thank you, Brad, for all you have done to make my dream a reality!"

ROMAN POOLS

Premium Outdoor Living for Busy Families...

For years, a backyard pool has been a place for neighborhood families to splash and play during the summer. But as we visit with pool customers, we are discovering that many families today aren't looking for just a premium pool. Many want to create an outdoor family living area – and extension of their home. The design team at Aloha Pools & Spas can help you design a spring and summer retreat that evolves into a cozy, outdoor den during the cooler months. An Aloha pool is just the beginning.

What Inspires You?

We've all heard the saying - beauty is in the eye of the beholder. And we think you'll agree that everyone's taste and style is uniquely different. That's why we've created this simple system to help you narrow down your pool color and pattern choices. So your first decision is to consider whether you prefer the color of your pool water to be light, medium or dark shades of blue.

Precision craftsmanship is achieved on our premium liners through advanced design software and cutting-edge technology. We specialize in custom vinyl applications for uniquely shaped pools, steps and custom accessories. Our premium liners are constructed of 100% North American sourced virgin vinyl, assuring years of durability, beauty and swimming enjoyment.

Light Collection

Let the serenity of our light series calm your soul. Imagine a piece of the Caribbean right in your own backyard. This series of liner patterns will give you a subtle and soothing color palette inspired by the light blue water of the islands.

Rich Collection

Go with the flow and indulge yourself with the Rich Series. Envision waking up to a shimmering seaside elegance of your own. This series of liner patterns will awaken your senses with colors and textures reminiscent of oceanfront luxury.

Deep Collection

Allow yourself to be mesmerized by our Deep Series. Picture a serene oasis just steps away from your back door. This series of liner patterns are influenced by the striking beauty of a lakeside retreat—satisfying the most discerning of tastes.

Gynite Pools

Creating Family Memories...

Remember the summers you spent at a neighborhood pool? Maybe your family's home was everyone's summer destination because you had a pool. Some of our fondest childhood memories are centered around water, and now is the chance to create your own family memories. We often hear "I used to see my grandkids once a month – now I see them all summer!" and "As our kids got older, it was hard to keep up with where they were in the summer" from our customers. Now we hear, "They're at home, and their friends are here, too." Take your pool dreams to the next level by choosing a gunite pool design from Aloha Pools & Spas.

Murray, KY

Beauty In The Details...

Customizing Everything to Fit your Needs...

Upgrade your Aloha pool with custom coping. Standard aluminum coping is functional and economical, but for a little more investment you can choose custom trim to coordinate with your home's design scheme. Brick and concrete have long been popular choices, but many of our customers are now choosing the new faux stone coping that we have to offer. Aloha can even create retaining walls that perfectly match your pool. And don't forget about pool decking. Stamped, colored, and stained deck finishes are attractive ideas for your new Aloha pool.

Dive Into Summer Fun...

Custom Dive and Jump Boards also available.

Eco-Jump Board

Prodigy Board

Aloha Classic

This diving set up has a simple design, but is loaded with functionality. The spring base comes standard in white, but can be upgraded to other colors; board upgrades are also available. Platform is powder-coated steel, and is available for use with 6' and 8' boards.

Our salt-friendly jump board is a customer favorite and one of our best sellers. The board is fiberglass with an acrylic base; the set is available in white or tan and with 6' or 8' boards. It is easily convertible to the waterfall model.

For our customers who want salt-compatibility in a spring board, this system is a fit. It is available in white or tan, and accommodates 6' and 8' fiberglass boards. It also converts to a waterfall model.

Feel the Rush!

ALL NEW Hypersonic

The 7' Hypersonic is FUN-sized and packed with features to make it one of the most entertaining water slides on the market! The long 16'8" runway length will make riders feel like they are at the water park and will be entertained for hours! This slide is available in gray in a right or left turn configuration.

Niagara

Stands 8'7" to top of handrails. Weight limit: 275 pounds. Available in sand or gray, in right or left turn. Rushing water and water park thrills in your own backyard! This slide has sturdy, molded-in handrails and an enclosed ladder.

Victoria

Stands 7'4" to top of handrails. Weight limit: 275 pounds. Available in sand or gray, in right or left turn. With the same features as the Niagara, this smaller version features a rapid water system for a splashing fun ride!

Blitz

Stands 6'5" tall at seating area. Weight limit: 250 pounds. Available in white, tan or blue acrylic; right or left turn. Stainless steel rails and legs. Steps are fully enclosed for safety.

Outdoor Kitchens

"Thanks for our backyard playground! We chose your company due to the affordable prices and quality of products. After installation, your staff went above and beyond to make sure we had all the supplies and info we needed for a first time pool owner. Though we had a minor issue with the LED pool lights, Aloha staff was flexible, working around my schedule while still being prompt at fixing the issue. We would definitely recommend Aloha because of their effort to satisfy."

Brian & Shelly Banks
Herrin, IL

Water and Fire Bowls

Natural Elegance...

Enhance your backyard landscape with fire and water bowls. Bowls are made from copper or concrete, and are available in different finishes. These decorative pieces will become a focal point for your Aloha pool. Fire and water bowls can be fully automated, operated with the touch of a button.

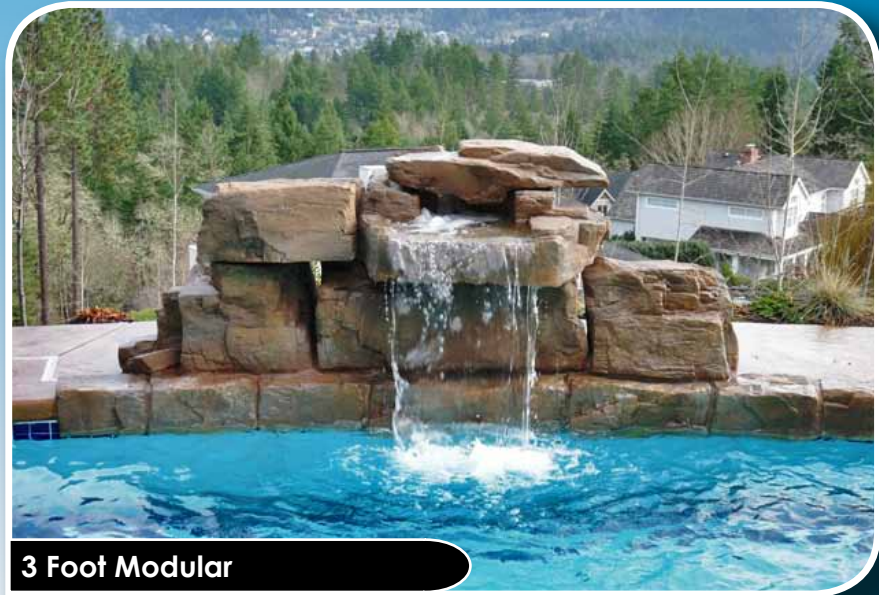

RicoRock®

Having a rock waterfall in your backyard adds a peaceful focus to any pool. RicoRock® is an efficient and affordable way to create a quality artificial rock waterfall. These waterfalls are available in standard styles and are installed using cement mortar for a permanent installation. They have modular pieces so they can be adapted to a variety of settings and are made of concrete for durability. Rico Rock is the faster and better way to build artificial rock waterfalls and they can be installed on all types of pools -- even remodels! Why have a RicoRock® waterfall? Because a pool has to be fun!

Pool and Spa Lighting

Whether you enjoy an evening swim, or just the ability to wind down next to your pool, lighting is an option we encourage our customers to consider. White LED lights provide a traditional glow, while multi-color lighting can provide inspirational hues or groovy light shows. With an automated system from Aloha Pools, just sit back and enjoy. You can set them and forget them.

Evening Ambiance

Solid Safety Covers

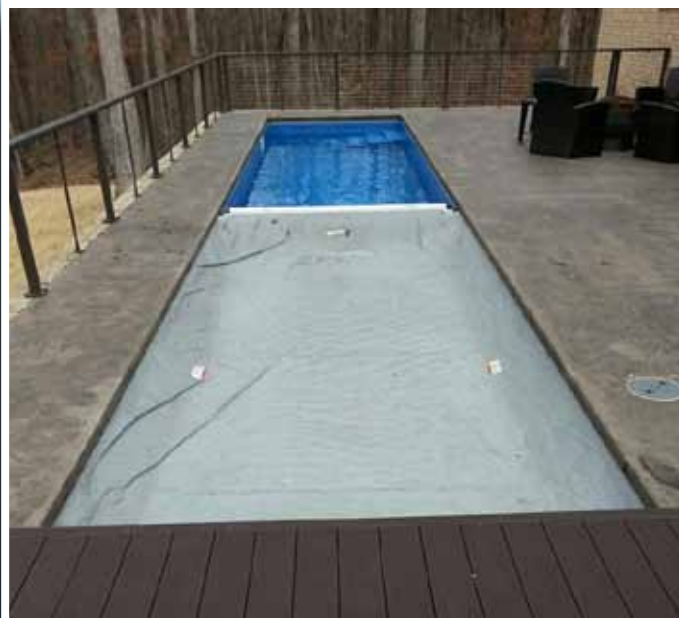

Pool safety covers are an attractive and functional addition to your pool. This protective barrier keeps everything out of your pool – pets, children, and more. And when it's time to open in the spring, it's comforting to know that clean water with minimum maintenance is waiting for you and your family.

Automatic Covers

Save lives, time, money and resources with an Automatic Pool Cover. With the simple turn of a key, your pool is covered or uncovered in less than a minute. No trash or debris, no unwanted critters, no worry about kids or pets. Is peace of mind for your family.

ClearCare Expert Water Analysis

Just Ask The Professionals...

Each of our five locations is equipped with the ClearCare Expert computerized water analysis system to assist our customers with their pool maintenance. Whether you need start-up help, summer maintenance, or closing advice, rest assured that the water care professionals at Aloha Pools & Spas are ready to provide superior care.

Water Care and Maintenance

At Aloha Pools and Spas, we offer a wide selection of pumps, filters, and sanitation systems. This helps our customers have efficient, energy-saving, economical choices in pool care.

Your pump is the heart of your pool. Proper circulation is a must for well-maintained, sanitized water. As a pool circulates, water is drawn from the pool and then forced back in through a filter (and sometimes a sanitizing system) and return line. When filtered and sanitized pool water is moving, algae growth is greatly inhibited, and both chemicals and pool water are more thoroughly distributed. From economical single speed pumps to energy-efficient two-speed pumps to innovative energy-sipping variable speed pumps, we will help you choose the right pump for your pool, lifestyle, and environment. But a pump is just a pump without proper filtration.

Sand filters have been our go-to choice for over four decades, and in recent years, cartridge filtration has gained popularity, as well. But did you know that adding a cartridge filter to a sand filtration system allows for water with even more clarity? For the best of both worlds, we have begun combining both systems, creating the Aloha Ultimate Water Management System. Ask your Aloha sales professional for more details. We want you to spend less time cleaning your pool, and more time enjoying it.

Adding a salt chlorine generator, or salt system, is another way to spend less time on pool maintenance. Using ordinary salt added to your pool water, a salt cell generates chlorine as a sanitizer for your pool. After the sanitizer is finished working, it reverts back into salt and the whole cycle repeats. You'll enjoy soft, silky water without adding conventional chlorine – all from the comfort of your lounge chair in the afternoon sun.

Speaking of the sun, another way to sanitize your pool water is through the use of Ultra Violet (UV) light – just like the invisible light emitted from the sun. These systems are easy to use and they don't alter the characteristics of the pool water. UV destroys over 99% of the organic matter and pathogens found in pool water. As a result, chlorine levels can be lowered dramatically – use less chlorine, spend less money. And UV systems can be used in combination with other treatment options – such as ozone systems.

Let's talk about using ozone for pool sanitation. Ozone (O₃) is a form of oxygen that has one more oxygen atom than the oxygen we breathe (which is O₂). Electrical energy starts the process that creates the O₃ molecule. The third atom makes the ozone molecule unstable, yet powerful. An ozone system duplicates this process and produces ozone safely, in controlled amounts, to disinfect pool water. The water is cleaned and contaminants are destroyed using ozone oxidation. What's left behind? Only the familiar oxygen molecule – O₂ – just like we breathe. Once again, you use less chemicals, because only a very low level of chlorine is required. Keep your wallet in your pocket.

Science class is officially over. While your head may be spinning, know that everyone at Aloha wants to make sure that taking care of your pool is the easiest thing you do all summer.

Automation

Let's face it – the old way of caring for your pool isn't nearly as fun as swimming. With an automatic pool cleaning system from Aloha Pools, you'll spend less time vacuuming and more time swimming. Pressure-side pool cleaners work in all in-ground pools and most require a booster pump. They are powered by jets, and can clean an average-sized pool in about three hours. A pressure-side cleaner sweeps and vacuums all surfaces of the pool, with debris being caught in a removable filter bag – so debris doesn't go into your pump or filter. Robotic cleaners also catch debris in a removable canister or bag while they clean your pool floor, wall, and water line in three hours or less. Let us program your pool cleaner to work for you, so you spend more time having fun.

Want to enjoy your pool longer with an extended swim season? Ask your salesperson about a pool heater or heat pump. A gas heater can raise your pool water temperature quickly and efficiently. Looking for an environmentally friendly alternative to maintaining the perfect water temperature? A heat pump is an economically smart choice, as well. They are the most efficient on the market, and they operate in an air temperature as low as 40 degrees. Reduce your carbon footprint while enjoying perfect water eight months of the year.

Wondering how in the world you will make sure how everything is running when you want it to? At Aloha Pools and Spas, we offer choices in easy-to-use pool and spa control systems. Control your pumps, lighting, fountains, water temperature, automatic cleaning, and sanitation systems from your easy chair. Yes, even from your smart phone.

Professional Service!

"I bought my pool from Aloha because of the concrete wall construction, maintenance free salt system, and the endless design options. From our custom shape to our sheer descent waterfalls and jump rock to our gas fire bowl, Aloha turned our backyard into an incredible resort! If you can imagine it, Aloha Pools & Spas can create it."

Randy Williams,
Medina, TN

We Take Pride In Our Work...

At Aloha Pools & Spas, we have a full fleet of service trucks with trained technicians to make sure that you have a trouble-free swimming season. What services do we provide? Pool openings and closings, safety cover installations, sand filter changes, energy efficiency upgrades, on-site pool and spa training, and salt system installations – just to name a few. Call on the professionals at Aloha Pools & Spas for on-time service you can trust.

At Aloha Pools...

We are so much more than a pool store. We are a construction company first - building vinyl liner, gunite, and fiberglass pools across seven states for more than forty years. We provide user training, support, and service to thousands of loyal customers, and that's what we will do for you.
